Light Cake Is Good for Children

Sponge cake, cup cakes, angel cake—all cakes that are not overrich in butter and heavy icings are splendid foods for growing children.

Make them from William Tell Flour and you double their food qualities.

Milled only from the finest Ohio Red Winter Wheat by our own special process, making it richest in nutritive value.

Your grocer keeps it. Order by day.

About the State

Dennis Hurley, a Rutland road engineer, had the instep of one of his feet crushed while on his run from Rutland to Burlington Saturday. His foot became caught in the reverse lever.

Rev. Archibald A. Lancaster, A. B. of St. Louis, Mo., has accepted the call to the pastorate of the Middlebury Congregational church and will begin his duties there about December 20. For two years Mr. Lancaster has been assistant pastor of the Pilgrim Congregational church of St. Louis.

Ernest Bissette, a small Burlington boy, was sentenced to the city yesterday to spend the remainder of his minority, until 1920, in the industrial school at Vergennes for truancy. He was arraigned last spring on the same charge and released. He has no mother, his father works all day and cannot look after him, and his sister, with whom he lives, has no control over him.

The postoffice department has refused an increase for rental in Brattleboro and there seems to be a question as to where the United States mail is to be distributed in that city for the next five years, or until the new federal building is built. The present quarters were leased for five years from December 1, 1900, by the government for \$800, but the selectmen raised that figure to \$1,100 when the present lease expired.

Through misinformation or carelessness in handling the facts as presented, statements have appeared in several Massachusetts papers to the effect that the Bottum Torrence collar manufactory is to be moved from Bennington to North Adams. The statement is entirely incorrect and undoubtedly came into existence through the efforts of North Adams parties to interest F. L. Bottum and A. M. Torrence of Bennington in a new collar manufacturing industry to be established in the Massachusetts city.

W. D. Bronson, a native of Hardwick, died there October 18, aged 79 years, three months and fourteen days. He was born on the farm which was settled by his grandfather in 1802. By education, Mr. Bronson was fitted for a land surveyor, which occupation he always followed. Since 1863 he had lived on the farm where he died. The first piece of permanent road in the town of Hardwick was built by him. For many years he was a member of the East Hardwick Baptist choir and a church officer, and in town had held the office of selectman, lister, justice of the peace and road commissioner. He leaves a son, T. G. Bronson, a representative from Hardwick at the last legislature, and one daughter.

The new electric company at North Troy has nearly completed a 50-foot dam on the Jay branch, which runs through a deep ravine, making a drop of 168 feet. The water is taken in a four-foot steel tube for 2,800 feet to the powerhouse, from which the power is conveyed to North Troy and Orleans. Soon many other towns will use the current, as there is almost unlimited power here. Over 4,000 tons of cement have been used in the construction of the dam. This is a great engineering achievement in itself and will also influence the development of other electric possibilities. It may tend to the exploiting of the great falls, where power sufficient to operate a railway from North Troy to Morrisville daily runs to waste.

Searchers Find Body.
Washburn, Me., Oct. 25.—The body of Ernest Elliott, a farmer of Wade plantation, who had been missing since last Friday, was discovered a mile from his home yesterday by one of a large number of searchers, who had been scouring the woods. A bullet wound was found in his body, but it was not possible to tell from the preliminary examination how he met death. An inquest will be held.

FREE BOOK ON PILES
Tells How Cures Are Made With an Internal Medicine.
Do you know the cause of piles?
Is it inward or external?
Is it a skin disease?
Will salves or cutting cure for good?
Do you know how Dr. J. S. Leonard found the long-sought internal cure?
These questions fully answered in a booklet mailed free by Dr. Leonard, C. Station B, Buffalo, N. Y., or by Burt H. Wells, Barre, Vt., who sells HEM-ROID, the successful remedy, at \$1 per large bottle, under guarantee. At all drug stores.

SPORTSMEN, SAVE YOUR GAME HEADS.
The season for deer hunting is near at hand. Hundreds of nice heads are spoiled every year by ignorance and careless handling. A skin for mounting should never be cut on the throat or neck. Stick your deer under the fore leg, just in front of the heart. Start to skin directly between the ears. Cut down on the top of the neck to the shoulders, being very careful to keep in center of neck. Cut around neck well down to fore legs. Be sure to get the skin long enough. Skin up to the base of the skull, cut off the neck from the head. Be sure to salt every part of the skin and fill mouth, eyes and all bullet holes with plenty of salt. Scrape all blood out of the hair and salt all bloody places. Get it to your taxidermist as soon as possible. Heads soon spoil. Save your nice heads if the horns are poor, as any large taxidermist will buy them for the skin. It will fit some other fellow. Don't throw away a nice head; they are worth saving.

WOMAN GOT VERDICT
Against Equitable Accident Company to Amount of \$520.
Rutland, Oct. 25.—Mrs. Harriet L. Moriarty of Castleton was awarded damages of \$520 and interest in Rutland county court yesterday afternoon, when a verdict was returned in her favor in her suit against the Equitable Accident company. The right-hand door of the car was broken by the jury at 11:30 o'clock yesterday morning. The jurors had agreed by the time the court convened after the noon recess. The attorneys for the plaintiff in this case were T. W. Moloney and G. W. Platt and Stokely, Sargent & Skeels of Ludlow represented the defendant.

The question in dispute was the length of time which the plaintiff was entitled to draw insurance for disability to a fall. When the plaintiff closed her evidence the counsel for defense moved that a verdict be directed for the defense but Judge W. W. Miles overruled the motion.

URGED TO TAKE VACATION.
Rev. George G. Bliss of Burlington Will, Therefore, Go to Europe.
Burlington, Oct. 25.—At a meeting of St. Paul's vestry, a resolution was passed, urging the rector, Rev. Dr. George G. Bliss, to leave the parish for a rest of several months, at his own discretion. Rev. Dr. Bliss during his vacation this summer did not secure the rest that he usually does, and he finds that his health is falling under the strenuous duties of his parish.

He will leave during November for southern Italy, Mrs. Bliss and probably Miss Mary accompanying him. Miss Harriet Bliss will probably attend Hannah More school near Baltimore, Md.

Cures The OLD SORES That Other Remedies Won't Cure

The worst cases, no matter of how long standing, are absolutely cured by

Dr. Porter's

Antiseptic

Healing Oil

Discovered by an Old Railroad Surgeon.

All Druggists positively refund money if it fails to cure. 25c, 50c & \$1.00

Paris Medicine Co., Celina, Ohio.

Dr. Porter's is a new discovery. It is a healing oil, and it is a cure for all sores, no matter of how long standing, are absolutely cured by
